## INTRODUCTION

An information certificate is a legal document that discloses specified information about a lot. Usually is required to provide information about a lot when it is being sold.

As these documents have different titles, depending on what State or Territory they are in, PropertyIQ uses the name information certificates across all States.

In WA, the information certificate in PropertyIQ is called a Section 110 Certificate.

You can generate information certificates from a lot owner's card.

#### INFORMATION CERTIFICATE TEMPLATE

Before generating information certificates, you should ensure the standard merge template is configured for your company. For full details about templates, view our Templates manual <u>here</u>.
